

# Junior Infants

Class of 2020

On August 29th the school journey began, It  
was time to let go of Mam or Dad's hand.  
Mixed emotions in the room, both excitement  
and fear, Most children were smiling, some  
others in tears.

Us Teachers assured you they would be alright,  
And looking back now, you'll agree we were  
right.

The Juniors settled in well, each in their own  
time, Learning how to take turns about who  
stands first in line.

Zippering up their coats, all by themselves,  
And sorting the toys back onto the shelves.  
Getting to know their classmates, a new family  
of friends, Friendships formed this year will  
last 'til the end.

They worked hard every day, and each day they  
got better, At learning their sounds and  
writing their letters.

Counting forwards and backwards all the way up  
to ten, If they couldn't at first, they tried  
again and again.

They worked as a team to get their work done,  
and at the end of the week, Golden Time was  
such fun.

The Nativity at Christmas made us so proud,  
To see them on stage, singing so loud.  
Pancake races in February was a treat for them  
all, big smiles on their faces as they raced  
in the hall.

The sports they engaged in, the art that  
they made, They have created memories that  
never will fade.

This year was a short one in St. Mary's PS.  
Entering Senior Infants , we wish our Juniors  
the best.
